# Standards to be held by NMHAOP Officials

- Hockey is an emotional sport, as players you need to play with emotion, as an official, we work on keeping emotion out of it
- Being an official does not stop when you take the stripes off. As long as you are an official you belong to a community- you are still part of that community even when you are a player
- It is imperative that you do not lose sight of how your actions on the ice can affect the community

# Standards to be held by NMHAOP Officials

- This community in particular, is a very small one, and word travels fast
- We need to lead through our actions, and send the right message to our teammates and everyone else at the rink.
- We cannot respond emotionally in the same way that another teammate might because we are officials- You guys are all held to a higher standard

# Mentorship Updates

## The Ugly

- Wonky Signals - Be Confident in your call, Straight and Assertive Signals
